As an ambitious, motivated and valuable person, he directs his ambitions towards the goal, which is for this public enterprise to become a true service for the citizens.

The Public Communal Enterprise "Gazi Baba 2007" was established by the Council of the Municipality of Gazi Baba in June 2007 and it is the only municipal enterprise on the territory of the City of Skopje. The main activity of the PCE "Gazi Baba 2007" is maintenance of public areas in the rural part of the Municipality, as well as maintenance of the water supply network in the settlements Creshevo, Smilkovci, Viniche and Bulachani. In the following period, a takeover of the water supply network in the village Rashtak has been planned. The funds from the collection of water bills in these settlements is the only independent income that is being realized by the PCE "Gazi Baba 2007".

The PCE "Gazi Baba 2007" expanded both in terms of the work and the activities for which it was established, so it also covers maintenance of public areas in the urban part of the municipality, as well as maintenance of football pitches on the territory of the municipality. Within the Company there is a workshop where urban equipment is being produced, such as: bins, benches, gazebos, fountains, etc.

Currently the PCE "Gazi Baba 2007" has 68 employed communal workers on the territory of the entire Municipality of Gazi Baba. The Municipality of Gazi Baba, as one of the largest municipalities in the City of Skopje, is faced with a big problem with the illegal dumpsites that are being created every day by negligent citizens, and for this reason, clearing them is the primary goal.

For that purpose, open communication has been established with the citizens of the municipality by means of telephone calls, open Viber line and communication through the Facebook fan page, where reports on various landfills and other needs of the citizens are being submitted every day, whereupon the PCE "Gazi Baba 2007" reacts as soon as possible, and the citizens experience the benefits of the completed work.

With the assistance and support of the Mayor and the Municipality of Gazi Baba, for the upcoming period it has been planned to create better working conditions, that is, to provide new uniforms for the employees, machinery for work, as well as new premises for the Public Communal Enterprise.
